MEMORANDUM FOR : Project Director/AQUATONE  
THROUGH : Deputy Project Director/AQUATONE  
Director of Administration/AQUATONE  
SUBJECT : Talent Interpreter Groups and their Use  
of Outside Consultants

1. When outside consultants are being used to interpret material disseminated through the Talent System, it is recommended that several different types of techniques and sources be referred to as the means of obtaining this material. Such might include Navy, Air Force, Foreign Agents, et cetera. It is desirable that insofar as possible consultants feel our materials are not obtained from a single source.

2. In the case of repeated use of the same consultant, it is recommended that appropriate clearance and Project briefings be accomplished.
